3-POINT PTO REAR PULL SNOWBLOWER TRACTOR ATTACHMENT

**HEADIN' IN THE RIGHT
DIRECTION...**

The Rear Pull PTO Snowblower allows you to drive forward while giving you the option to leave the front loader on the tractor if so desired. The blower lifts very high with the 3-point, so when a drift is encountered, the tractor can be turned around and backed into the drift to drag it out. The RP series is a 2-stage blower designed to gather snow efficiently.

FEATURES

- Blow snow while driving forward
- 270° chute rotation
- Optional hydraulic chute rotation (hand crank chute rotation comes standard)
- 20" and 24" fan diameters
- Optional hydraulic deflector
- Models to fit tractors from 20-75 HP
