HEAVY-DUTY POWER ANGLE BROOM

SKID STEER ATTACHMENT

**SWEEPING
HEAVY-DUTY
STYLE...**

Industrial broom design offers a heavy-duty frame, oversized bearing, and larger motor drive block. The strong and simple-to-use parking stands need no tools and have no pins that can get lost. The floating tilt follows the contours of uneven surfaces for better bristle contact and even bristle wear.

FEATURES

- 8° floating tilt allows broom to follow ground contour. This helps prevent bristle coning when angled
- Oversized 4" bearing on arbor
- Stronger reinforced frame
- Handles on bearing help with arbor change
- Handles on motor can help with bearing change and help protect motor
- Easy flip down stands require no tools and no pins
- Angle side to side 30 degrees
- Larger 3" hex drive helps with longevity

POWER ANGLE BROOM

SKID STEER ATTACHMENT

Optional:
Pistol Grip Control Harness is required if skid steer is NOT equipped with attachment control system. (Only needed when ordering hydraulic angling model).

Optional:
Wire Harness for hydraulic models with attachment controls. Fits Cat/ASV (8-pin) and John Deere/New Holland/CASE/Bobcat (14-pin).

Hood made from **14-GAUGE STEEL** and formed for added strength

More and larger diameter **FILAMENT** than most of our competitors

Large **32" HEAVY-DUTY** wafer packages available (sold separately)

Massive **4" GREASEABLE BEARINGS** for extended wear life

Flip up storage stand – no snap pins needed

Direct-drive design with replaceable drive components allowing forward and reverse operation

POWER ANGLE BROOM

SKID STEER ATTACHMENT

Massive 4" greaseable bearing, with housing protection for extended wear life

Protected direct-drive motor by Eaton Char-Lynn is mounted inside the brush arbor

Clean ergonomic design with fewer moving parts saves you money on future maintenance and repairs

Flip up parking stand with no snap pins required

Exclusive 8° oscillating design allowing the broom head to move with the contour of the ground

Rubber torsion system which allows the head to float up and down
