SKELETON ROCK BUCKET

SKID STEER ATTACHMENT

PLAY IN THE OUTFIELD...

The Skeleton Rock Bucket is engineered to pick rocks from the soil while sifting. Perfect for picking up rock and debris for farming and landscaping. Designed with grade 80 steel to provide the strength needed for rigorous digging and hauling.

FEATURES

- Open design for excellent operator visibility
- Extra long tines for carrying larger loads
- Tines designed to keep material from rolling forward
- Grade 80 steel for added strength
- Gusseted tines for added strength
- Excellent for rooting and back dragging
